Lost Production Hours	Daily 2.08 hours	Annual 500.00 hours	Daily 4.17 hours	Annual 1,000.00 hours	Daily 6.25 hours	Annual 1,500.00 hours	Daily 8.33 hours	Annual 2,000.00 hours

The above is based on employees gaining just an extra 5 MINUTES per day of clocked hours. In reality, this can be 2 or 3 times this amount. This is a great cost to your Company, and you can reduce your annual costs dramatically with efficient time recording and associated signal devices.

Any company SME right up to Enterprise should consider how much extra can be produced with all the lost hours that **you** are paying for.
