

Kelio ON DEMAND

Take advantage of our cloud-based Time & Attendance System

Kelio On Demand - An innovative, complete and scalable SaaS based time management and access control solution available via a Web browser.

Security

Kelio On Demand is hosted in a highly secure tier 3+ data centre:

- o Data encryption
- o Data backed up daily
- o Backup power supply

Simple to use

Kelio On Demand is installed on our servers in France. All you need is an internet connection. There is no need to worry about IT architecture (server, database, running a backup or having security). No installation is required locally.

Availability and reliability

Users can connect to Kelio On Demand 24 hours a day, 7 days a week from any location, providing complete peace of mind.

Budget control

Kelio On Demand is an all inclusive package offering:

- o Software
- o Updates
- o Customer service

There is no upfront cost: you pay monthly based on your employee capacity.

Flexibility

Kelio On Demand is a flexible and scalable solution which can grow with your organisation both in terms of employee capacity and functionality.
